

CAMERON P. SIX, P.Eng.

Vice-President, Engineering

Phone: 1-403-294-5152

Fax: 1-403-294-5590

E-Mail: cameron.six@sproule.com

Cam Six has been a Sproule professional since 2004. Cam is a Partner of Sproule in Calgary. Cam's experience at Sproule has been primarily in the areas of Canadian reserve evaluations and year-end evaluations, acquisitions, divestitures, security commission reports, reserve audits, and international property evaluations. Cam has provided support to legal teams for litigation and has provided expert witness testimony. Cam lectures at the University of Calgary and to the petroleum industry through Sproule's inhouse course on the "Evaluation of Canadian Oil and Gas Properties". Cam has extensive experience in Canada (Western Canada, East Coast, Northwest Territories and the Mackenzie Delta) in various technical and management positions with Mobil Oil Canada and ExxonMobil Canada.

Diplomas and Degrees

- ❖ B.Sc. Chemical Engineering with Distinction (1979), University of Calgary, Calgary, Alberta, Canada

Memberships

- ❖ Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA)
- ❖ Society of Petroleum Engineers (SPE) – Director of Continuing Education for Canadian Section of the SPE

Work Responsibilities

- ❖ Manage Domestic Engineering Group:
 - ❖ Instructor for Sproule course in "Evaluation of Oil and Gas Properties".
 - ❖ Estimate reserves and evaluate client's domestic oil and gas properties using a variety of engineering software.
 - ❖ Manage 20-30 year-end reserve evaluations for a variety of clients.

- ❖ Manage Domestic Engineering Group (Continued)
 - ❖ Audit client and third-party evaluations.
 - ❖ Conduct reservoir and production engineering studies to assist clients in determining potential opportunities.
 - ❖ Assist clients in preparing master development plans for properties.
 - ❖ Provide expert opinion and testimony.

Previous Employers

- ❖ 2002-2004 **Imperial Oil Ltd.**, Calgary, Alberta — *Commercial Manager, Mackenzie Gas Project*
 - ❖ Team Leader – set up commercial arrangements for the Mackenzie Delta pipeline and gathering system.
 - ❖ Negotiations with potential shippers and project partners, develop contracts and agreements.
- ❖ 2000-2002 **ExxonMobil Canada Ltd.**, Calgary, Alberta — *Engineering Manager*
 - ❖ Management of entire Western Canadian capital program; i.e., gas exploitation, heavy oil development, SAGD, conventional oil development, new gas production.
 - ❖ Management of Engineering, Planning and Construction (90+ technical staff).
 - ❖ Approval of all reserve revisions/additions for Western Canada.
- ❖ 1979-2000 **Mobil Oil Canada**, Calgary, Alberta
 - 1996-2000 – Business Unit Manager, Kaybob/Foothills*
 - ❖ Management of growth and capital spending teams.
 - ❖ Responsible for entire profit/loss for area – including field production, exploitation drilling, land acquisition, geoscience and engineering.
 - 1993-1996 – Development Team Leader*
 - ❖ Management of land, geoscience, reservoir, production and facilities engineering for capital projects in Southern Alberta, Saskatchewan, and East Coast (including Sable Island).
 - 1992-1993 – Reservoir Engineering Advisor, Mobilite*
 - ❖ Designed and implemented non-core organization.
 - ❖ Reservoir and production engineering, development and optimization projects.
 - ❖ Provided decisions on all joint venture non-operated projects and unitizations.

1989-1992 – Reservoir Engineering Supervisor

- ❖ Technical guidance on development plans, drilling programs and reservoir studies.
- ❖ Production, capital and expense forecasting.
- ❖ Interpretation of economic modelling results.
- ❖ Approval of reserve assessments.

1989 – Senior Staff Engineer, Property Divestment

- ❖ Preparation of operational and financial data to market selected properties.
- ❖ Evaluation of all unsolicited offers received on properties.
- ❖ Economic evaluations and sale of properties in S.E. and S.W. Saskatchewan.

1988-1989 – Associate Production Foreman, Rainbow Lake

- ❖ Management of primary, waterflood, miscible flood operations.
- ❖ Coordination and implementation of reservoir management plans.

1986-1988 – Staff Operations Engineer, Whitecourt

- ❖ Operations engineering.
- ❖ Well completion and testing programs.
- ❖ Optimization and monitoring of primary, waterflood and vertical hydrocarbon miscible flood projects in Rainbow Lake and sour gas development in Sierra, British Columbia.

1983-1986 – Staff Operations Engineer, Drayton Valley

- ❖ Design and implementation of workovers, recompletions, artificial lift and well optimization.
- ❖ Supervision and design of fracture stimulations.
- ❖ Implementation and monitoring of polymer injection profile modification programs.
- ❖ Design and supervision of completion and testing programs for Southern Alberta.

1983 – Senior Reservoir Engineer, Halifax, NS

- ❖ Supervision of well tests for Venture gas field, offshore Nova Scotia.

1980-1983 – Reservoir Engineer, Heavy Oil

- ❖ Evaluation and development of bitumen resources in Cold Lake and Celtic.
- ❖ Reserve analysis.
- ❖ Core analyses and steam stimulation programs.
